With reference to the latter, it should be pointed out that FBIB is no longer authorized to disseminate material at its own discretion. Distribution of material to United States Government offices is controlled by the Office of Collection and Dissemination. OCD has authorized FBIB field bureaus to furnish material to U. S. Government representatives, subject to its review; but prompt notification of any changes in your mailing list and of any new special services you render should be sent to this office for clearance with OCD.

Distribution of material to [Redacted] however, is a special case outside OCD jurisdiction. Pending the negotiation of a formal reciprocal agreement, we have been authorized to continue reciprocal services on the basis of present contacts, not refusing any reasonable request for unclassified material, but not volunteering services which might have to be withdrawn if the agreement is not concluded on the expected terms. On the other hand, dissemination of material to representatives of other foreign governments, except courtesy copies of your publication to the [Redacted] [Redacted] require advance authorization in the name of the Director.
